TUESDAY, FEBRUARY 16, 1915.

### For Old Glory.

A committee of the Daughters of the American Revolution appeared before the Judiciary Committee of the House Representatives last Wednesday to ask that the bill "to prevent the uesecration of the flag of the United States of America." now in charge of that committee, be amended so as to include foreign countries. The bill in its present form, as it passed the Senate, provides protection only in this country.

It is not very clear how a bill passed by our Congress could protect the flag of the United States from desecration in a foreign country. On the other hand, it is not clear to most women how our fing could be desecrated in any way that was not a direct insult to our government. We all know that the women of foreign country, for instance, would have no desire to make sofa cushions of the Stars and Stripes or to have them painted on the soles of their slippers. And we all know that a real insult to our flag by a foreign government means a reckoning later on with our govern-

Miss N. Lovisa White a charter mem ber of the D. A. R., explained some of the ways in which the flag of the United States is sometimes desecrated; ways of which the government can take no cog nizance. Speaking for the committee of the D. A. R. which appeared in Congress last week, she referred to numerous instances during journeys abroad where the flag was seen hanging in tatters in front of drinking saloons to entice American sailors who came to shore in search of amusement. In other instances large and beautiful flags, said Miss White were used in front of the so-called Amer nean restaurants, wherein no person could speak a word of English.

instances like these that have caused the D. A. R. committee to become active. Their work is a good one, and their impulse is one of true patriotism.

Laura Kellogg, Daughter of Long Line of Indian Chiefs, Laughs at the Old Idea of the Downtrodden Squaw.

"The earth is our mother. From ever went into Indian work. It is her her breasts have we drawn life. The aim to help the Indian to help himself. She does not want to make a "pinch-back white man" out of him, but to

kinship is counted through the man, a race of women which drew its inspira You take your name from the male tion direct from the heart of the wood is taken through the female head of try free before our ancestors had set the family. All the members of one clan are descended from the same ancestors and this members are the same ancestors. estress, and this mother of the clan is respected with the greatest rever-

ence by her descendants. "The Indian girl is trained to the same sports as her brothers. A brothers, and I could shoot as straight an arrow as they. I rode with the best of them, and I thought nothing of taking a trip of 500 miles across hills and mountains. That is how I travel now, too. Others go in the agent's automobile when visiting the Indian reservations. But I am a real Indian woman, so I go horseback.

"The idea that the Indian woman was nothing but a beast of burden, a slave of her husband, is, like a good many other ideas in circulation about the In-dians, a mere fiction. The word squaw was not known till the white traders word but a corruption of some provincial expression. The idea that many white people have of the Indian woman being a slave to her husband, who waits or him hand and foot, and acts as his hunt shot down is no more true to the facts than it would be to assume that all you American women were kitchen drudges just because a few of you do have to spend your lives in a hopeless maze of

"More than once the Indians have fought out long feuds because the white settlers dared to call our women 'squaws.' We women have always had t is a cause of astonishment to us that you white women are only now, in this twentieth century, claiming wha has been the Indian woman's privileg as far back as history traces."

Laura Cornelius Kellogg, or Mrs. O. J

Kellogg, passed her girlhood on the Oneida reservation, in Wisconsin. As a members of the head chieftains' family she early shared in the feeling of responsibility for her people that her ancestors had always assumed. It was her girlhood dream to do something to help her people whom she saw more and more misrepresented and misunderstood. "It was from the old men of the tribe

that I got my earliest inspiration, talked to them and I studied what the told me. They taught me the old tra-ditions and the old wisdom of the days before the white man had come. As a child I never went to the government schools and I am glad I didn't for in learnin gfrom the old Indians I had an opportunity to absorb all that true spirit of the Indian that our young people educated away from their tribe can never know. I am confident that I learned as much from these untutored Indian men as I ever learned from al country or in Europe.

As part of her preparation of her work for her people Miss Cornellus graduated from Radeliffe College and spent several

## Most Old People Are Constipated

The wear of years impairs the action of the bowels. With advancing age-people are disposed to restricted activity and exercise, which is responsible for the constipated condition of most old folks. The digestive organs are more sensitive to the demands more sensitive to the demands made upon them and rebel more quickly.

A mild, effective remedy for constipation, and one that is especial-ly suited to the needs of elderly people, women and children, is the combination of simple laxative herbs with pepsin that is sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 452 Washington St., Monticello, 111.
